

Motion for temporary
restraining order / preliminary injunction

370 A. Front St
Columbus, OH 43215

Judge Morrison
MAGISTRATE JUDGE JOLSON

I request that a temporary restraining order
be granted barring all listed defendants contact
with me. I also ask that a preliminary injunction
be granted causing my immediate release
from this Facility.

The ongoing violations of my human rights makes
me very fearful for my safety and well being.
While this court isn't a United Nations tribunal, it's
probably in my interest to classify the excessive
violations as civil rights deprivations in an
environment where the constitution seems not
to exist or be taken seriously. I ask the court
to resolve this motion as Law and Justice require
and to interpret my pleading liberally as
I am not schooled in matters of law to compose
a professional motion for restraint and injunction
against the defendants who have unlimited resources to
hire legal experts to oppose me in quest for Justice.
I declare the above statements
to be true under Penalty of
Perjury by Law
